

Access is from the main Tobermory to Dervaig road with a drive down a track

**Boat fishing** A mile along the loch from the north west end is a sign saying Tackle and Books. Pull off here into the parking space (there is also a wash station). Follow the path to the loch side. Turn south east and follow the shore. Round the headland is the Jetty with the green plastic boat alongside. This is the Tackle and Books boat (**not** the wooden boats). Don't enter the cabin (on the deck is fine).

From the Salen end of the loch enter at the top of the hill. The gate can appear padlocked but it is not. There is then a longish drive along the track.
